

# THE NEW RED HEAD 700 ROTO STOP HAMMER

**VERSATILITY** — 3 tools in one! Drills up through 1" dia. with solid carbide . . . 2 $\frac{5}{8}$ " with core bits. Drills and sets Self-Drilling anchors through  $\frac{1}{2}$ " dia. Hammer tools available for chipping and scaling. Powerful 6.3 amp motor assures high performance for all applications.

**LOW MAINTENANCE** — Electric shut-off prevents armature damage due to worn brushes and signals for regreasing and general maintenance . . . grease lubricated . . . sealed barrel keeps dirt out and grease in.

**STOP ROTATION FEATURE** — Built-in stop rotation lever is in a convenient and protected location and allows drilling with or without rotation.

**HANDLING EASE** — New easy to use push-button tool retainer . . . auxiliary handle swivels to any position . . . flush top for close-up drilling . . . safety clutch helps prevent jerking or kicking . . . all in a lightweight package of only 11 $\frac{1}{2}$  lbs.

# High-Performance versatility in a lightweight package!

At last, a lightweight Roto Stop Hammer engineered to meet the widest range of common drilling requirements. "Systems-designed" to install **RED HEAD** Self-Drilling Anchors through  $\frac{1}{2}$ " and drill with carbide-tipped bits through  $2\frac{5}{8}$ ".

Typical **RED HEAD** engineered reliability, fast action and ease of handling make this tool a must for every job. Consider these outstanding features . . . Advanced impact mechanism air cushion design for higher performance with lower maintenance . . . Rugged high-impact nylon and magnesium housing for strength, safety and lightweight . . . Full ball and roller bearing . . . Extra long power cord . . . Dust shield for overhead drilling slips on easily without obstructing vision . . . Auxiliary handle stays on tool even in carrying case and is easily adjustable to any position.

## 700 KIT

Designed with the user in mind. Kit includes steel carrying case, 700 hammer with auxiliary handle and depth gauge and accessories for installing  $\frac{1}{4}$ ",  $\frac{3}{8}$ " and  $\frac{1}{2}$ " **RED HEAD** Self-Drilling anchors. Accessories include S-47 shank; RH-514, RH-538, and R-512 chuck heads; dust shield; EK-12 ejector handle; X-158 drift key; BB-10 blowout bulb and Owner's manual.

## 700 Specifications

Motor..... Universal  
Amps..... 6.3  
Voltage..... 115 AC 60 Cycles  
Weight..... 11½ lbs.  
Length..... 14¾"  
Speed (under load)..... 430 RPM  
Impacts per minute (under load) . 3150 BPM  
Capacity..... Self-Drills through  $\frac{1}{2}$ "  
Carbide bits through 1"  
Carbide core bits through  $2\frac{5}{8}$ "

CERTIFIED TO MEET ALL SAFETY  
**OSHA**  
REQUIREMENTS FOR POWER TOOLS

## Other **RED HEAD** "Systems- designed" tools:

The **747 Roto Stop Hammer**, designed for the big jobs with drilling capacities of  $1\frac{1}{4}$ " in solid carbide,  $2\frac{5}{8}$ " core bits and up through  $\frac{7}{8}$ " in Self-Drilling anchors. Powerful 9 amp motor, and the same engineered versatility as the 700 Roto Stop Hammer have long made the 747 a favorite in construction and industry.

The **606 Hammer/Drill** provides lightweight, rugged dependability in the world's fastest  $\frac{3}{8}$ " hammer/drill. Capable of drilling a  $\frac{1}{4}$ " x 2" hole in normal concrete in less than 5 seconds. Adjustable impact plus two speeds lets you drill  $\frac{3}{8}$ " holes in concrete,  $\frac{1}{2}$ " in metal and  $1\frac{1}{2}$ " in wood. The reversible side handle simplifies left or right hand operation.
